

Wake Robin

A Family Farm

November 1, 2013

As our cows transition from pasture to hay, we are all spending more time indoors these days. We are busy year round milking cows, making yogurt & cheese, and bottling milk. Around this time of year, we make a very special cheese, which we call Trillium. It is a mild and creamy, perfect for pairing with apples or spreading on a crusty bread.

It is ready
this

weekend, in both full wheels and half wheels!

Find it at our farm store, which is open every day, or come see us at the CNY Regional Market on Saturdays.

With the change of seasons, you will find us in our warm, cozy winter spot at market, in "A" shed.

Hope to see you soon!

Your Farmers,
Bruce & Meg Schader
